SELECTRODE MICROBOND Cold Spray Torch Kit

FEATURES & APPLICATIONS

MICROBOND Torch Kit

This simple and easy to use torch is available as a torch alone as item # 79070 or in a complete kit/carrying case combination with assorted powders as item # 79080

A heavy duty cold spray metalizing torch designed for simplicity, ease of use and ergonomic features.

This gravity feed foolproof powder applicator assures perfect cold metal spray results every time. Repairs can be easily made on cylindrical parts at temperatures between 200°F (90°C) and 500°F (260°C).
